THIS IS NOT AN INVOICE - NO PAYMENT IS REQUIRED

Please give this document to your Accountant or Tax Agent to assist in the preparation of your BAS Return.

This document summarises your Motorcharge Invoices for the tax year and may assist in the preparation of your tax return. The above figures do not necessarily show all purchases incurred up until 31 December 2010, and may include purchases from a previous taxation period, depending when sales information was received from the merchant by Motorcharge. The Taxation Commissioner has ruled that where each vehicle has its own Motorcharge card, the Motorcharge monthly invoice will be all that is required to be retained by Motorcharge account holders to substantiate goods and services purchased through the Motorcharge system. The Motorcharge Quarterly BAS Report is made available to you on the understanding that it is not tax advice but rather a service to help you comply with taxation legislation. It is provided in good faith, based on information supplied by you to Motorcharge. You should seek professional advice before acting on the information contained in any Motorcharge Quarterly BAS Report documents.
