

More than a fuel card...

Using your Motorcharge card

1. Should you purchase items outside your Motorcharge purchasing restrictions, you may be required to reimburse the company for these items.
2. As the cardholder, you are responsible for ensuring the odometer reading is recorded at the time of the transaction.
3. If your transaction is electronic, please advise the operator of your odometer reading. If the transaction is manual, please advise the operator to write your odometer reading on the voucher.
4. It is important to check all information as, by signing the voucher, you are verifying that all details are correct and authorising the transaction to be billed to your account.
