Safeguard is a maintenance and repair program designed to protect your vehicle and your business from unexpected operating costs. Through Safeguard, our authorised National Dealer Network carries out maintenance and repairs according to an agreed schedule with pre-determined costs.

The Benefits

- **Pre-determined Costs** - Structured monthly costs to avoid unexpected service and repair bills.
- **Nationwide Service** - the Safeguard program is supported by a comprehensive network of authorised parts and service professionals.
- **Operational Reliability** - reduces any unscheduled down time off the road.
- **Higher Resale Value** - A full service history will increase the resale value of your vehicle.
- **Genuine Parts and Service** - the Safeguard program delivers the highest standards across all repairs and maintenance with guaranteed use of only genuine parts and service.
- **Genuine Peace of Mind** - for business operators and drivers. Safeguard guarantees that vehicles are supported 24 hours a day 7 days a week through the authorised National Dealer Network.

With a Safeguard agreement, your vehicle will be assigned an individual identification code so that the service history of that vehicle, its performance and any unique needs are available to any authorised Dealer. That in itself is a safeguard, a time saver and money saver.

The Safeguard Classic Package Offer

- Roadside Assistance
